

EOS

The Kinyo Eos is designed for use on heat-set web and sheetfed.

Features

- Tough ThermaSphere® compressible layer remains stable offering longer press life through improved shock absorption and rapid gauge recovery.
- Heat and pressure treated carcass for extended life on press. Delivers consistent print with very low gauge loss.
- New design printing rubber compound for longer life.
- Exceptional ink transfer and sheet release enhances print quality, resulting in controlled dot gain and solid ink coverage on paper and board.
