

Jupiter

The Kinyo Jupiter is designed for use with UV chemistry.

Features

- Utilizing a dedicated UV face compound designed to provide excellent resistance to all polar components of UV inks and washes.
- Tough ThermaSphere® compressible layer, stays stable, offering longer life on press through improved shock absorption with rapid recovery.
- Gives constant printing conditions with very low gauge loss.
- Groundbreaking ecological improvement in blanket manufacturing resulting in solvent free laminating process.
- Low micro-ground surface gives accurate half tone dot structure and high-quality reproduction.
