

TS2020-SF

The Kinyo TS2020-SF is designed for sheetfed and packaging.

Features

- "TS" – the next generation ThermaSphere® compressible layer – unique to Kinyo.
- High density carcass with thicker compressible layer resists edge marking with all substrates.
- This thicker compressible layer delivers even longer life on press, improved shock absorption and minimal gauge reduction.
- The blended surface compound has improved resistance to embossing.
- Semi-polished rubber surface for perfect dot reproduction and excellent solids coverage.
- Excellent ink transfer and sheet release.
- Designed for general purpose sheet-fed applications and packaging.
- Carcass made with high strength-low stretch cotton textiles.
- Energy recovery and reduced solvent usage throughout the entire manufacturing process.
